Hi Max:

November 8 and 9 won't work for EPA. We're having a conference call on Monday and should have a better idea afterward about what arrangements would work from this end.

Regards,

Terry

**Subject:** RE: Jeffersonville FCA Update and Request for Modification

Thanks Beth –

It looks like the week of the 24<sup>th</sup> doesn't work for us. We are available the first full week in November on the following dates:

- Tuesday, November 8; and
- Wednesday, November 9

Also, we want to propose having a call in advance if there are any questions/specifics you want us to address at the meeting. October 21 would work for the conference call.

Let us know if this works or is there any other dates that you area available after November 11.

Regards,

Max

Thanks. Would Friday, October 21 work? Again, our preference would be to meet in Jeffersonville so we can get as much local participation (sewer board, etc.) as possible. Also, I really think Jeffersonville wants an opportunity to show other progress that has been made with the system. We can provide a fuller agenda in advance. Regards, Max

Hi Max:

We have an internal meeting schedule in this matter on October 17<sup>th</sup>, so I would prefer that we meet after that.

Terry and Beth –

I think by now each of you should have received Jeffersonville's FCA Update and Request for Modification. In terms of next steps, we would like to propose an in-person meeting for Jeffersonville to present the key points of its revised FCA, discuss our modification request, and answer any preliminary questions. For further reference, please see attached public comments that were submitted by Jeffersonville to IDEM as part of its recent draft permit renewal.

For the meeting, we'd propose either Tuesday, October 11, or Wednesday, October 12 as the best dates for us. Present would be Diana Hamilton (Sycamore Advisers), Chris Ranck (Arcadis), myself, Len Ashack (sewer director), and perhaps a couple members of the sewer board. Our initial preference would be to have the meeting in Jeffersonville.

Please let us know if these don't work (or feel free to propose your own) and preferred location. Please let us know if you would like to have a preliminary conference call before then as well.

Regards,

Max
